

iStarUSA Has Won Computex Best Choice Award on Storage Product

06/17/2008

By Jacky Kang, *Marketing Department*

June 14, 2008 - iStarUSA is proud to announce the great achievement of winning the Best Choice Award from Computex Taipei 2008.

As part of the iStarUSA Inc., our storage product is awarded with the innovative and excellent performing storage product, **mAge316U40-PCI-E**.

The professional juries selected the product based on 4 highlights of the product:

- * **Innovative architecture which allow customer to use any standard SAS/SATA internal RAID control card.**
- * **Fastest external PCI-e x8 host interface up to 20Gbps (5 x faster than Fiber Channel).**
- * **A leading solution of external storage products with both high capacity and high speed performance.**
- * **Excellent cost-effective external storage solution for enterprise level in the market.**

Now in its seventh year, The Best Choice of Computex awards were announced at the show's opening ceremony. R.O.C. President, Ying-Jeou Ma and Mayor of Tapei City, Lung-Bin Hau, highlighted the importance of the award with their presence and remarks. President Ma congratulated the 38 prizewinners on their achievements, and expressed his belief that even more inspiring IT products will be introduced to the market.

Twenty-five winners were named Best Products in eleven fields, different than past years, not only the professional juries decided the best thirty-nine from the nominated 125 products, but also there was a second runoffs.

The Best Choice awards are undoubtedly the highlight of Computex Taipei. The awards began in 2002 and all attending manufacturers are qualified to attend the competition. Candidate products are judged and scored in terms of three criteria: technology, innovation and international sales potential.

It is an honor and we are very proud to win the Best Choice Award from Computex. It is a recognition of our team's efforts and dedication in researching and developing great products to our users in different area of profession.

Being awarded by Computex and supported by our users has given iStarUSA a stronger motivating force to develop more excellent products and keep doing what we believe.
