iStarUSA™

## Introduction

iStarUSA design stylish and high performance industrial rackmount chassis. We use the latest computer aid design technology to rapidly develop prototype for customer; equipped with custom precision press and cutting machine to produce top quality rackmount chassis. We also incorporate FCC, CE, thermal, and vibration standard testing from mobile, industrial, medical, to military requirement. iStarUSA provide full service solution brings concept to reality for industrial rackmount chassis.

## Industrial Chassis Division

Rack-mount Chassis, Trayless ATX Tower, HD Storage Enclosure

## Application Highlights

### Medical & Healthcare

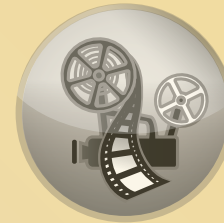

Since computer technology has been developed rapidly, many medical and healthcare institutes are transferring data like ultrasound and radiography from film and videotape to digital imaging systems. In order to accurately access to the data and store enormous digital records, iStarUSA offers storage rackmount chassis for storing huge amounts of data.

3U 16-Bay Storage Rackmount Chassis

4U 24-Bay Storage Server Rackmount Chassis

### Digital Content & Filming

iStarUSA offers a solution of high capacity and extreme performance for today's demanding real time video editing, motion graphics designing, and high resolution multi-track audio recording. Many projects and video streaming needed to be stored accurately, safely, and individually to find out the location of data easily. 90% of errors in the film industry are due to malfunction of hard drives and equipment. The professional line of iStarUSA products with superior performance is well suited for digital media content applications

### Surveillance & Security

In DVR industry, iStarUSA has taken the initiative to provide cost-effective and customized chassis specifically for BNC and Ethernet connections. From compact 2U to 3U and 4U chassis, iStarUSA can customize the DVR solutions to fit individual needs. Whether is security surveillance or home entertainment, iStarUSA have high quality, high scalability, and cost effective chassis for all DVR systems.

4U 20-Bay Storage Rackmount Chassis

### Storage Server Rackmount Chassis

( 1U ~ 8U )

### Performance Rackmount Chassis

( 1U ~ 4 U )

### Military Rackmount Chassis

( 3U ~ 4 U )

### High Performance Professional ATX

/ EATX Tower

### Hot-Swap Storage Enclosure
