

Assembly Guide

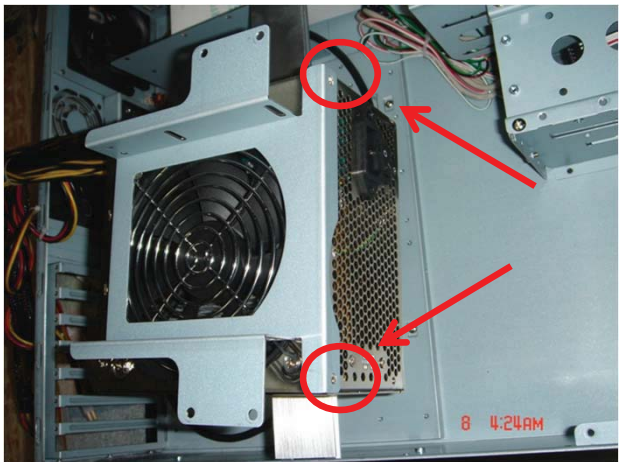

D-300-FS/ D-300-PFS with ATX Power Supply

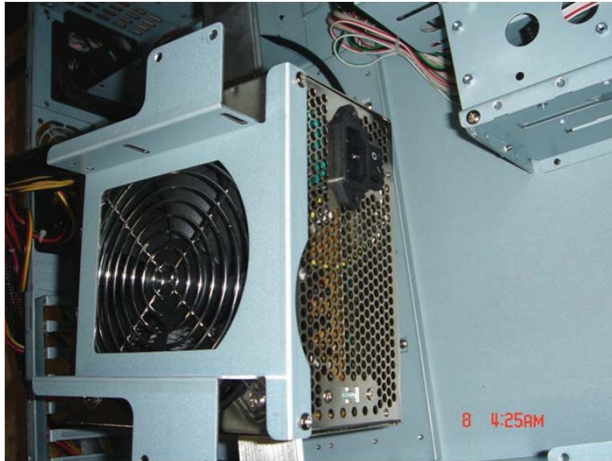

iStarUSA™

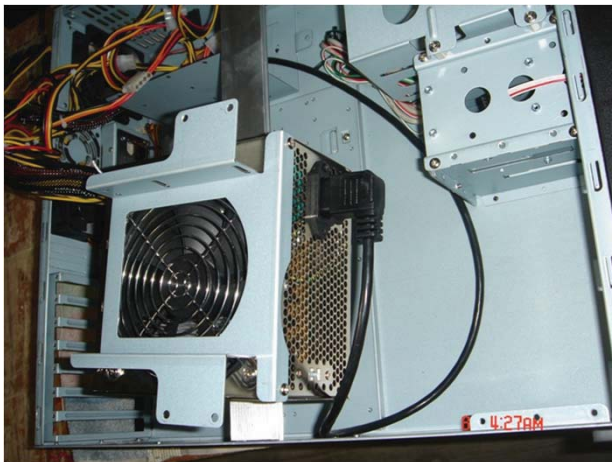

1. Make sure power supply is an ATX PSU and less than 180mm in depth. Remove the preinstalled bracket from chassis

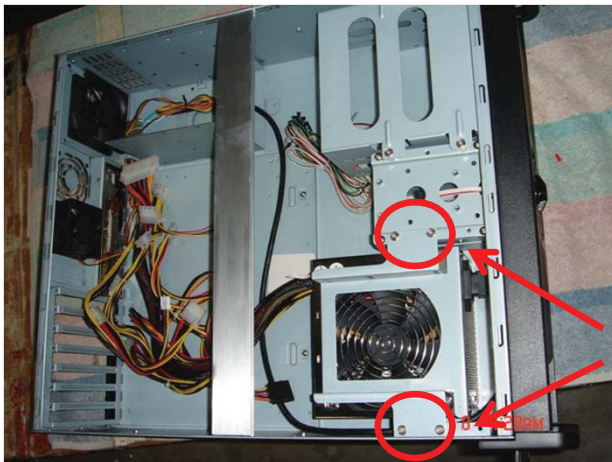

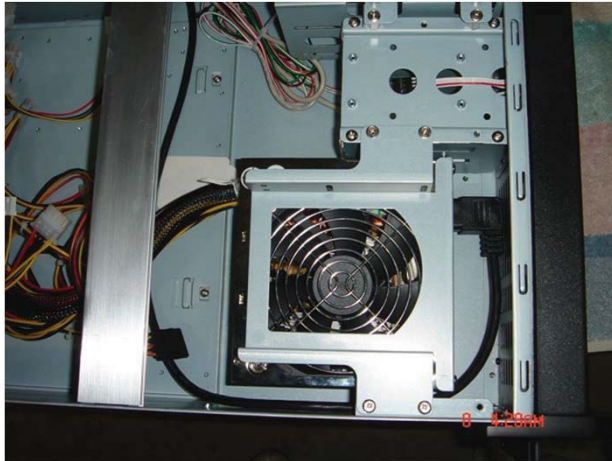

2. Mount bracket onto the ATX PSU and secure with two screws at the front side

3. The Bracket should be securely tighten to the PSU

4. Attach AC power cord from the back of the chassis

5. Safely route the AC power cord around the PSU and slide the entire unit into the slot

6. Secure the entire PSU and bracket back to chassis

Complete!
